

Great Lakes Renewable Energy Association

Issues a Call for Instructors.

Background on GLREA:

Since 1991, GLREA, a 501c3 non-profit, has been working in Michigan to educate professionals, decision makers, and residents about the benefits and practices of sustainable energy use. GLREA's mission is to increase the mainstream use of renewable energy technologies and sustainable energy practices. GLREA promotes a team working environment. GLREA is Michigan's largest renewable energy association, leading training and education in Michigan's advancement towards sustainable energy use. GLREA hosts the Annual Michigan Energy Fair, the Fall Michigan Sustainable Homes and Business Tour and the 2009 Michigan Wind Conference. GLREA conducts a County Wind Energy Planning programs and the Go Solar Michigan Program.

Description of position

Great Lakes Renewable Energy Association (GLREA) is looking for people with instructional abilities to help expand their capabilities for delivering introductory seminars. This opportunity would appeal to all academic and education/training professionals interested in reaching an engaged audience through the use of a classroom setting.

Course content is set up by GLREA, and covers solar heating including solar domestic hot water and radiant flooring, solar electricity, and wind. Interested instructors should have some knowledge regarding these renewable energy systems, and have good teaching skills.

This is a contract position with the GLREA. Seminars are scheduled throughout the state of Michigan, while GLREA would like to have instructors in all areas of the state that is not always the case. You may be asked to travel for the seminars. GLREA pays a set rater per seminar payment amount will be discussed depending on experience and contract length.

The seminars are aimed towards the general public who are trying to gain a better understanding of renewable energy, its uses, applications, and benefits.

If you are interested in becoming an instructor, please send resume and background information to Samantha Keeney by phone or email (listed below). Feel free to forward and cross-post this announcement to others who may be interested.
